Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments:

The Applicant's representative requested the After-Final Interview to discuss the instant invention and the difference between the claimed limitation and the cited prior art specifically the recitation of "determining a descriptor weight in accordance with a combination of descriptors" as recited in claim 1. The Examiner pointed to Vaithilingam et al. page 1, paragraphs 0010-0012 wherein "generating clusters of descriptors" and assigning scores to the clusters is disclosed and broadly interpreted to read on assigning weight to "combinations of descriptors".

The Applicant's representative argued the recitation of "query viewpoint" as disclosed in claim 7. The Examiner pointed to Riverieulx de Varax column 4, lines 23-48, and column 5, lines 17-50 wherein "initial, adjusted, and updated query" is taught and is being broadly interpreted to read on the argued limitation.

The representative stated a response will be filed to the office shortly
